*Dox*  
Dear Mr. Stollo:

It has been an extraordinarily busy time for us since we celebrated the generosity of major donors like you back in June. We were honored to have Wish Dad Martin Gordinier and his daughter Payton tell us about the beautiful impact of Payton's Disney wish on the Gordinier Family; as well as Maria Gorman and her daughter Nicolette tell us about her trip to Orlando to swim with dolphins. Their testimony provided compelling evidence of the power of a wish and the truth in the statement that WE bring hope, strength and joy to our wish children and families through the wish experience.

When I say "WE", of course, I am referring to the partnership between you as donor and our wish granting volunteers that makes the wish experience possible. Both are vital and necessary.

The enclosed "award" is an acknowledgement of your generous and enduring commitment to the Make-A-Wish mission and the 1,200 children and teens we have served these past 24 years. Our chapter is now granting nearly 100 wishes annually, and we have NEVER denied or delayed a wish because of lack of funding. We have you to thank for these achievements, and we are grateful beyond words.

May God bless you and your loved ones abundantly this holiday season, especially with good health!

With humble thanks,

*Bill*
